Cigar Store Burgiarized.

Yesterday morning when the branch cigar store of C. W. Tunt, on Market street above Twelfth, was opened for business, it was discovered that in the night somebody had effected an entrance to the store by way of the side window, which opens upon a private alley, and had stolen all the money there was in the till, about \$1.25, besides quite a lot of pipes, cigars, cigarettes and chewing and smoking tobacco. There was no clue left to the burgiars, but there is reason to believe that the theft was perpetrated by boys. The entire loss is not definitely known.

The Finance Committee reported that it was necessary to negotiate a temporary loan of \$800 on account of the Building Fund, and the necessary authority was granted it to make the same.

The Committee on Buildings and grounds reported that it was of the opinion that the necessary furniture for the new Washington school building could be contracted for now upon more advantageous terms than later in the season, as this is the slack period in the year in the furniture trade, and asked to be authorized to contract for such furniture as may be needed. The committee presented the following bills which were ordered paid: Klievis, Kraft & Co., 8th estimate of work on the Washington school building, \$720; E. W. WRITTEN EXAMINATIONS. WRITTEN EXAMINATIONS.

Mr. Hannan wanted to know something about a resolution passed by the Board some time since, doing away with written examinations except in the grammar department. In the discussion that followed it was developed that a large number of teachers, exercising no discretion whatever, were compelling pupils in the lower grades to undergo elaborate written examinations in which a certain kind of paper and two kinds of the second process of th elaborate written examinations in which a certain kind of paper and two kinds of ink had to be used. This practice was roundly denounced. Superintendent Anderson was called on for his views, which, summed up, were that the passage of the resolution would probably be productive of more good than harm. It was decided not to take hasty action in the matter, but to refer it to the Committee on Buildings and Grounds for investigation and report.

floor and warmly championed the position; he said that a Board that yed as well as did this one was deproposition; he said this one was deserving of all the comforts that a body could have. Then Mr. Davis observed the air of calm content with which one of the reporters leaned back in one of the comtortable tilting chairs the chamber is supplied with, with his feet elevated on the table in front of him, and he said he was in favor of desks so that he could have the happy American privilege of elevating his heels. The ayes and noes were called for and the desks ordered by a vote of 9 to 4. Those who voted "no" were Messrs, Hannan, List, Waterhouse and White. The desks will cost about \$75 and will be similar to those used by Council.

Yesterday Mr. Henry swore out a distress warrant before Justice Arkle against the tenants, and Constable Lauchlin proceeded to execute it. The German tenants not understanding the processings, naturally objected, having paid their rents to the Board. The results was a row of considerable proportions. One of the men resisted the officer, and was only subdued by the use of nippers, after which he was put in jail. Then the furniture was gotten out on the pavement, About this time Clerk Hall heard of the trouble and summoned Messrs. Naylor and Acker, of the Board, to the rescue. and insisted on paying lare.

By this time the crowd following was something enormous, and seemed to frighten horses worse than the new car. A number of horses were met, but beyond shying a little they did not behave at all badly. The henvy car made much less noise than was expected. The only really sunusually sound was made by the wheels traveling on the wires overhead, through which the power was transmitted. In crossing Main street bridge the front wheels jumped the track, but a hundred hands soon had the car on again. Up through the business part of Main street the sidewalks were jammed. Arriving at Twelfth street the car was stopped; Mr. Sheoff did not care to risk running up the hill till the had loosened the running gear on level ground. A short stop was made to enable citizens to inspect the car and then it was ran back.
